

Joe Raemer

PADI Divemaster

Joe grew up in the surf and on the beaches of the South Bay, so the ocean has always been a place of fun and enjoyment for him. An avid backpacker during his college years, Joe was looking for a new way to explore the outdoors when a co-worker suggested scuba diving. Certified in 1997, Joe discovered in scuba diving something he really enjoyed and could do often.

Joe completed his PADI Divemaster training in 2001, and continues to make dives all over the California coast, the Caribbean, and the South Pacific.
