

Rescue Diver

Anyone with a valid Advanced Open Water Scuba Certification can sign up for this course. This course focuses on expanding your core diving skill set by applying dive theory to real life diving scenarios.

The Rescue Diver Certification Course is an important and crucial step in expanding a diver's knowledge and experience beyond a purely recreational level. The course is demanding, but realistic in its conduct, content, and approach. Rescue training expands your knowledge of diving, increases your level of diving skill and preparedness, and makes you more aware of what is happening around you in the diving environment. You will learn how to be adequately prepared for an emergency and how to manage a diving emergency if one should occur.

Rescue Diver Course

\$339 PADI Rescue Diver

- ☐☐ Two Class and Two Pool Sessions
- ☐☐ Up to two days at the ocean depending on class size.
- ☐☐ PADI Rescue Diver Textbook
- ☐☐ PADI Rescue Diver DVD

Required Materials:

- ☐☐ Compass, Timing Device, Dive Knife, Slate and Whistle
- ☐☐ For class dives, you must supply a Total Scuba Diving System including BCD, Regulator, Alternate Air Source, Dive Computer or Submersible Pressure Gauge.

Prerequisite for Course:

- ☐☐ Certified within the last two years in First Aid and CPR.
 - The EFR Course taught here at Dive N' Surf meets this requirement.
