

Discover Snorkeling

Anyone with an interest in the Oceans, whether above or below, can sign up for this course. This course focuses on expanding your basic snorkeling and skin diving skills. It is designed to provide the novice snorkeler with a structured, well-supervised means to gain practical experience necessary to increase skin diving skills and confidence.

This course will allow you to participate in a semi-private setting in out on-site heated pool. We will discuss activities that will broaden both your capabilities as a skin diver, and awareness of the underwater environment.
